Dear Sir

above you have a bill of
 lumber on board the Corone Capt
 Nicholas upon Pine boards an what I call
 cheap & good here they 3/4 for me extra as we
 bought them - there is considerable money of
 the hemlock being as before but I think the
 trouble is in the survey & not the boards
 I don't know how long or short you want me to draw
 but have added 1/2 percent for collecting draft & will draw
 at 60 days if you want longer time you can have
 4 mo + add 60 days int if you will note me in int
 of this

Capt Nicholas will get about what
 strings you want
 Over

Yours very Respectfully
 D. Waldron
