

I expect Aletha will be up there this winter to stay a day or two I wish you would buy one or two hundred lbs of Dried Apples if you can get them for 4 cts per lb I expect they are <sup>per</sup> cheaper now than they will be when it goes up there

I think Alvans charges a great price for mixing 2 gal of Liniment he charged 6½ dollars just for mixing it is not 3 hours work (if it could be all done at one time)

we are all in usual health my little girl has been very sick with Inflammation of the Lungs but is well now. she can climb up & walk a few steps by showing a Chair & can say papa & mamma she is 7 months old I think her eyes look like Eliza Ann's.

Julia & Aletha sends their love to you all I should like to see you all come & see us whenever you can it is very pleasant here in the Summer but rather bleak in winter. no snow here yet but mild & warm }  
yours in haste  
C. P. Keith
