

I am told it is much the most pleasant  
way by Littleton & the White Mountains,  
& that the stage fare is the same, as by Con-  
cord. I have no very serious objections  
to your coming home that way, tho' I want  
you to see the Concord people and bring  
home a box run left them in the garnet,  
& some books to be bound at Dr. Philbrick's.  
At any rate, come safely if possible and not  
expose yourselves in the night or rain &  
do not crowd into a stage that is too full  
by one half. I hope you will have  
everything done & ready to start  
a day or two before Commencement  
so that you can take things easily  
& not worry & get yourselves sick.  
Dr. Evans now says he shall not be  
able to be there at Commencement.

Upon  
the ground.

He has a place reserved for him  
in Illinois to practice. Mr. Richardson thinks  
Charles may spend a year here, when his time  
is out at Bridgton. Mr. Southwick & Culver intend  
Sam, shall remain here a year with you two,  
& study with Mr. Wood. So you see you will  
be strong handed. If you can get room in  
your trunk you had better carefully pack  
in your new clothes to come home - you  
must wear your hats of course as the safest  
way, you can bring them. My health is some  
better, but quite poor now. Ma is about  
as well as usual - we have very hot weather  
in here & every thing looks flourishing.

Write forthwith if anything in the matter -  
Yours truly, John S. Burrows
