

The point I would enquire into
is whether it would be practicable to
run the canal from said forks on
our side of the line so as to form
a connection with the St. Johns
then to pass through the Highlands
with the Canal so as to have it
answer to the end with the double
objet of a route to obtain and to
the boatable waters of the St. Johns
So as I propose to have the route
through the Lake ~~and~~ answer
for the Quebec route and to pass
through to the upper part of the
St. Johns Country.

If you can give me any
information on this subject
write to me.

Yours respectfully
A. W. Jones
