Dr Sir

From what I can learn of the parties & witnesses in your case with the Chandler's River Co, ~~that~~ they go on the idea that the Dam was shut in ⁱⁿ the fall when the Hay was injured. I want you to look some & get proof that the dam is only shut in in the spring, or at least let them prove at what season of the year the Hay was injured, & then we will show that at that season the gates were all up. In their writ they allege that the Hay was damaged in August & ask you, 52, 53, & 54

If you will come over Wednesday we will arrange for trial

Yours Truly
